OBJECTIVE

Driven and analytical Workforce Management professional seeking formal regularization as an **RTA Workforce Specialist**. Leverages proven experience managing real-time queue pressures, tracking critical performance metrics, and optimizing intraday operations across multiple Lines of Business to ensure consistent SLA delivery.

WORK EXPERIENCE

ADHOC REAL-TIME ANALYST (WFM) / CUSTOMER SERVICE REPRESENTATIVE
INSPIRO - Molo, Iloilo City
2024 – Present

- Multi-LOB Queue Management: Entrusted to independently monitor and manage real-time queue pressures and service levels concurrently for two distinct Lines of Business (LOBs).
- Intraday Performance Optimization: Proactively execute real-time routing adjustments, skilling modifications, and agent reallocations during sudden volume spikes to protect SLA thresholds.
- Metric & Adherence Tracking: Track and report real-time agent states, identifying prolonged offline statuses, schedule discrepancies, and core contact center KPIs including AHT, Occupancy, and Schedule Adherence.
- Root-Cause Analysis (RCA): Log, catalog, and document specific intraday drivers behind major SLA drops, unplanned system outages, and severe floor absenteeism for operational snapshots.
- Stakeholder Alignment: Coordinate directly with floor Team Leaders (TLs) and Operations Managers to drive real-time metric alignment and swift floor adherence improvements.

AWARDS

Sakura Awardee - Most Outstanding CSR 4th Quarter (BDO)

CORE SKILLS & COMPETENCIES

Workforce Management

- Real-Time Queue Management
- Intraday Performance Optimization
- Multi-Channel Queue Operation
- Schedule Adherence Tracking
- KPI Tracking (AHT, Occupancy)
- Shrinkage Factor Mapping

Technical Skills & Analytics
